

GOOD REASONS TO GO FOR HECHT ENDLESS LINERS

- ◆ Systems and endless-liners: provided by one single source
- ◆ „Emergency“ supply: Buffer stock for our standard endless-liners as well as delivery of small quantities of our standard liners (LPDE, green grid-print liner)
- ◆ Fast re-assembly from gathered liners to folded liners
(Savings up to 50%!)
- ◆ Existing systems of other manufacturing brands with CLS-liners and/or cable assembly can easily be equipped with HECHT endless liner Technology
- ◆ Folding for special liners also possible

OVERVIEW

AT A GLANCE

Easy to handle

Economic and safe

Fast and flexible

DIMENSIONS AND MATERIALS

TYPE	Width (mm)	Diameter (mm)	Folding height (mm)	Liner length (m)
05C	400	250	150; 300	5 - 15
10C	500	320	170; 250; 400	20 - 40
15C	600	380	170; 250; 400	20 - 40
20C	700	450	170; 250; 400	30 - 50
30C	800	500	170; 250; 400	30 - 50
50C	910	580	170; 250; 400	30 - 80
60C	970	620	170; 250; 400	30 - 80

TYPE	Material	Thickness	Manufacturing	Approval
LDPE STANDARD	LDPE, 5% Antistatikum	80 µm	Standard	—
LDPE STANDARD FDA	LDPE, 1% Antistatikum	80 µm	Cleanroom Class D	FDA
LDPE PHARMA	LDPE, with antistatic grid-print, non-migrative	100 µm	Cleanroom Class D	FDA
LDPE conductive	on request!			
Customer-specific solutions possible! → Feel free to contact us!	Thickness	50 µm - 100 µm		
	Width	250 mm - 1200 mm		
	Length	5 m - 85 m		
	Manufacturing	Chemical Standard or Cleanroom Class D
